ARRA Stimulus Project Update

Weather permitting, Tuesday, September 29, 2009, Haskell Lemon Construction Company under contract with the Oklahoma Department of Transportation using Federal Stimulus Funds in the amount of \$1.4M, will begin the deep patching repairs to the westbound lane of Lindsey Street between 24th Avenue S.W. and 300 feet east of Berry Road. This work will require the closure of the westbound lane and shift traffic into the center left lane through the project area. This portion of the work is anticipated to take one week to complete. Upon completing the work in the westbound lane, the eastbound lane will be closed for the deep patch repair work prior to the milling and repaving operations on this section.

Paving and milling operations are scheduled to be completed on University Boulevard between Main Street and Boyd Street on Tuesday, September 29, 2009, with the work to update and modify wheel chair ramp locations to meet current ADA requirements at the intersections to be scheduled.

Paving and milling operations are scheduled to be completed on Eufaula Street between University Boulevard and the Burlington Northern Santa Fe Railway on Wednesday, September 30, 2009, with the work to update and modify wheel chair ramp locations to meet current ADA requirements at the intersections currently in progress.

Deep patch repairs to Jenkins Avenue between Boyd Street and Duffy Street are estimated to be completed on Wednesday, September 30, 2009. The asphalt milling and paving operations on Jenkins Avenue between Boyd Street and Lynn Street are scheduled to begin on Thursday, October 1, 2009 and completed Tuesday, October 6, 2009, with the work to update and modify wheel chair ramp locations to meet current ADA requirements at the intersections to be scheduled.

Deep patch repairs to Flood Avenue between Acres Street and Highland Parkway began on Monday, September 21, 2009 and are estimated to be completed by September 30,

2009. The asphalt milling and paving operations and the work to update and modify wheel chair ramp locations to meet current ADA requirements at the intersections will be scheduled.

The contractor will be working on non-game day Saturdays in order to maintain the schedule for the projects. Every effort will be made to accommodate residents and business locations during the process at all locations but delays can be expected.

If there are further questions or additional information needed, please do not hesitate to contact Mr. Greg Hall, Street Superintendent at 405-366-2524.
